

PML/RARA STAT FISH testing ordering on Sunday.

To order STAT PML/RARA testing on a sample obtained on Sunday, the ordering provider should:

1. Send a blood/bone marrow sample to the Magee Womens Hospital via a STAT courier (1-866-778-1500) and instruct the sample to be delivered to the 4th floor lab room number 4660. Samples can also be sent from the CLB to tube station 417.
2. Call or leave a message at 412-641-6699 (the cyto lab lead technologist phone) to inform regarding the shipment.
3. Email the lab service account at Pittcytogenetics@mail.magee.edu with patient's name, DOB, provider's name, and additional details (if BCR/ABL1 testing is also ordered, etc.).
4. Result of the PML/RARA STAT FISH testing will be available on the following Monday and will be called to the Leukemia Service. Clinical provider/pathologist will be notified as indicated in the request to the service account.
